
Mayan Dog House

Daniela Munoz EG-325

Sketch

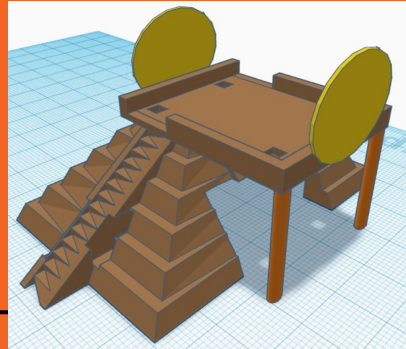

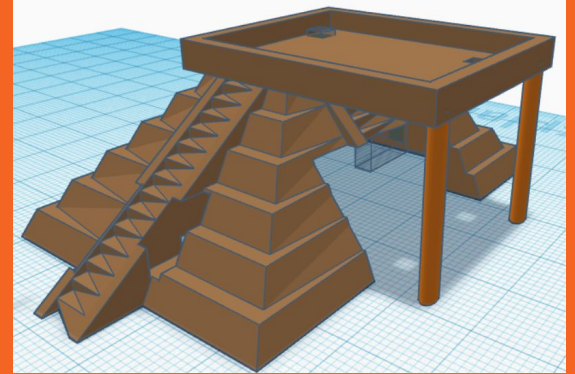

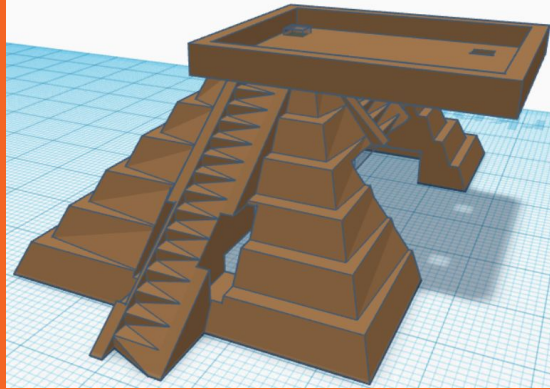

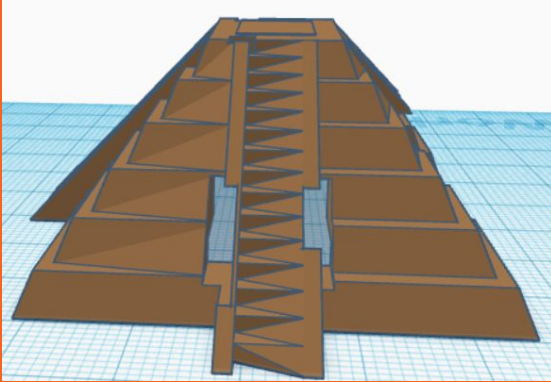

Materials

- **Western Red Cedar Lumber Boards (Exterior base)**
 - This sturdy material will be able to withstand weather conditions and the average weight of a medium-sized dog (30-70lbs.) when they rest on the mini-roof.
 - **Rubber roof shingles (Mini-roof)**
 - This type of roofing is extremely durable typically lasting 15-30 years, low maintenance, and highly insulating that's made to be eco-friendly.
 - **ECOS Pet Dwelling Paint (Whole exterior)**
 - This paint will add a touch of color to the dog house. Being washable and non-toxic is an important factor that makes this the best option to paint the dog house.
-

Design

- Goal: Themed house that brings joy to the owner and the dog
 - Based on Mayan temples with its pyramid-like structure and accessible mini-rooftop.
 - Steps on the temple are for aesthetic and functional purposes as two sides of the temple are used to access the temple
 - Half circle on two sides replicate the Mayan sun God sculpture, giving the dog a bit of privacy while relaxing on the rooftop
 - partially insulated for warmth during the fall season and have replaceable floor tiles
 - Two rectangles per side of the house provide ventilation
-

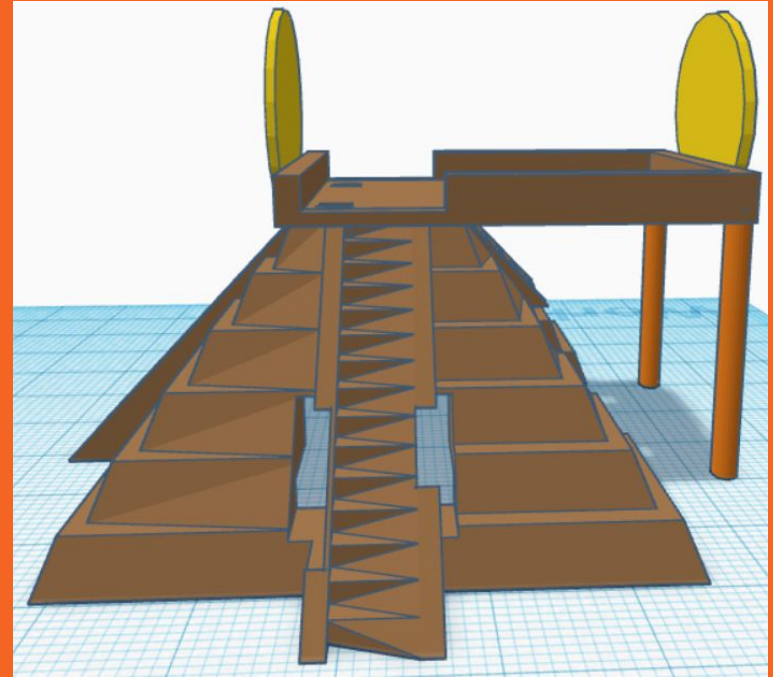

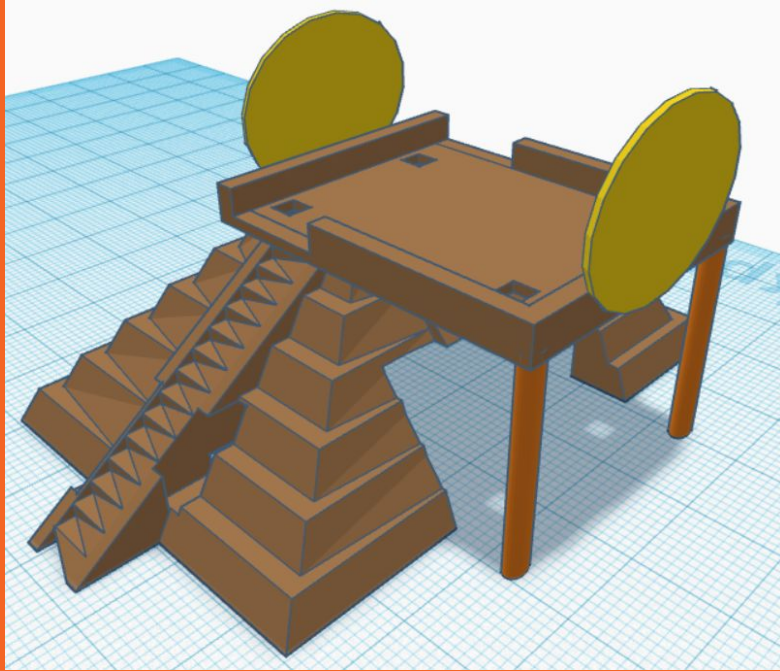

Assembly Line

Assembly Instructions

1. Connect main temple-piece to rooftop bedding
 2. Slot in two poles towards front of rooftop for support
 3. Slot in each circle for dogs privacy screen
-

Final Design

Why Should you buy this Dog House

- Themed dog house that adds a fun and entertaining experience for your dog.
 - Climbable steps for a view on the peak. Fit for an imperial dog.
 - Extra ventilation to keep cool during the summer time. They can be covered during winter so the house can still be warm.
 - Don't feel bad about getting your dog a nice house, it uses recycled materials and is eco-friendly!
 - Give your dog some privacy with two high fences on the mini-roof.
 - Price: \$90.50
